Letter from the 2nd Vice Chairman

Dear SAMPE Seattle Chapter Member,

I'd like to ask your help. To gain member input in program topic selections and improve the content richness of our meetings, I'm seeking three things:

1. Program topics or presentations you want to see at a SAMPE Seattle Chapter meeting; or,
2. A presentation you might want to share with chapter members; or,
3. A broadly-interesting facility-tour suggestion.

Speaker topics should be Materials and Process related, and need not be exclusively in the aerospace field.

A typical presentation would be a 30-minute PowerPoint style with 10-15 minutes for questions. Recognizing that public release of information is a stumbling block for some companies, a speaker need not create a new presentation, but can deliver an existing one provided it is recent and relevant. We encourage technology discussions, offered in a non-commercial fashion.

If you have a suggestion, I'd love to hear about it – please send me a quick note. Details are always helpful. Thanks for your kind consideration and interest!

Best Regards,
Ted Hile
2nd Vice Chairman
SAMPE Seattle Chapter
