Other News

Dr. Brian Flinn, professor at the University of Washington, received the Dahlgren Award from Bill Karman of Airtech International during our September Chapter Meeting.

CAMX 2015, held in Dallas, TX on October 26-29, was a successful event that featured many technical talks and opportunities to connect with composites and advanced materials experts. Some of our local Seattle members were able to participate in the CAMX conference.

We look forward to greater Seattle Chapter participation at SAMPE Tech in Long Beach in May 2016.
