SAMPE Seattle Student Scholarship 2017

The SAMPE Seattle Chapter is pleased to again offer a scholarship program. This year, three scholarships in the amount of \$3000, \$2000, and \$1000 will be awarded. The goal of this program is to help support a new generation of students pursuing a post-secondary degree in a STEM (Science, Technology, Engineering, and Mathematics) field. Eligible candidates must be current SAMPE student members or children of a SAMPE member. **Applications are due on March 31st.** Complete details can be found on our website at: www.sampeseattle.org

Puget Sound Material Expo (PSME) 2017

The SAMPE Seattle Chapter thanks all of our sponsors and those who attended PSME to make this event such a success! Because of this success, the SAMPE Seattle Chapter will rotate future

PSME events between the Future of Flight and the Museum of Flight to be more accessible to our geographically diverse chapter.

Annual Student Night

This year at Student Night, the SAMPE Seattle Chapter will be holding a poster competition (yes, there will be prizes!) rather than presentations. This will allow for more students to be involved. If you're interested in participating this year, please start thinking about your poster topic and stay tuned for more details to come out shortly!
